

Enterprise HRMS — UI Navigation & Feature Testing Guide

Welcome to the **Enterprise HRMS User Operating & Feature Testing Guide**. This document provides a comprehensive step-by-step walkthrough for operating, navigating, and testing every module, user interface flow, and **form validation rule** within the application.

Local Environment & Access

- **Dev Server URL:** `http://localhost:5174/` (or `http://localhost:5173/`)
- **Framework:** React 19 + Vite + MUI v6 + Zod Validation

Table of Contents

1. [Authentication & Account Setup](#)
2. [Main Dashboard & Quick Widgets](#)
3. [Employee Directory & People Hub](#)
4. [Attendance & Time Tracking](#)
5. [Leave & Approvals Management](#)
6. [Holidays & Branch Calendars](#)
7. [Organization & Master Data Administration](#)
8. [Roles & Permissions Administration](#)
9. [Onboarding & Document Verification](#)

1. Authentication & Account Setup

1.1 Sign Up / User Registration

- **Route:** `/auth/sign-up`
- **Features:** Multi-field registration form with company domain assignment and country-based phone validation.
- **Testing Steps:**
 1. Click **Create an Account** on the Login screen.
 2. Fill in Company Name, Workspace URL, Team Size, Name, Email, Phone Number, and Password.
 3. Click **Register**.
- **Expected Result:** Account is created and confirmation screen/email prompt is displayed.
- **⚠️ Validation Errors to Test:**

Field	Trigger Condition	Expected Error Message
<code>:</code>	<code>:</code>	<code>:</code>
Company Name	Less than 2 chars	"Company name must be at least 2 characters"
Workspace URL	Invalid characters or starts with hyphen	"Only lowercase letters, numbers, and hyphens. Cannot start or end with a hyphen."
Team Size	Unselected dropdown	"Please select your team size"
First / Last Name	Less than 2 chars	"First name must be at least 2 characters"
Phone	Non-digits or > 10 digits	"Phone number must contain digits only" / "Invalid phone number for the selected country"

| **Password** | Less than 8 chars | "Password must be at least 8 characters" |
| **Confirm Password** | Mismatched with Password | "Passwords do not match" |

1.2 Login Page

- **Route:** `/auth/login`
 - **Features:** Email & Password Login, Remember Me toggle, Forgot Password trigger.
 - **Testing Steps:**
 1. Navigate to `/auth/login`.
 2. Enter valid credentials (e.g. `admin@company.com` / `Password123`).
 3. Click **Sign In**.
 - **Expected Result:** Authenticates successfully and redirects to `/dashboard`.
 - **⚠ Validation Errors to Test:**

Field	Trigger Condition	Expected Error Message
:---	:--- :---	
Email	Leave blank	"Email is required"
Email	Enter invalid format (e.g. <code>admin@com</code>)	"Please enter a valid email"
Password	Leave blank	"Password is required"
-

1.3 Password Recovery & Account Activation

- **Routes:** `/auth/forgot-password`, `/auth/reset-password`, `/auth/verify-email`, `/auth/activate`
 - **Testing Steps:**
 1. Click **Forgot Password?** on the login page.
 2. Enter your registered email address and submit.
 - **⚠ Validation Errors to Test:**
 - Leaving email blank triggers "Email is required".
 - Mismatched new password in Reset Password triggers "Passwords do not match".
-

2. 📊 Main Dashboard & Quick Widgets

- **Route:** `/dashboard`
- **Overview:** Centralized command center for HR managers and employees.

Features & Testing:

1. **KPI Metric Cards:**
 - * View live top-level metrics: *Total Employees, Present Today, Leave Requests Pending, Upcoming Celebrations*.
 - * Verify that KPI icons are compact (`26px` $\times$ `26px`) and subtext trends are properly colored.
 2. **Weekly Attendance Trend Chart:**
 - * View bar charts comparing daily present vs. absent vs. late counts.
 3. **Today's Status Breakdown Widget:**
 - * Inspect visual pie chart/breakdown of workforce status (On Time, Late, WFH, On Leave, Absent).
 4. **Celebrations Card:**
 - * Displays upcoming birthdays and work anniversaries for the current week.
-

3. 👤 Employee Directory & People Hub

- **Routes:** `/employees/directory` , `/employees/create` , `/employees/profile/:id`
- **Overview:** Complete workforce management hub with dual view modes (Table & Card Grid).

3.1 Directory View & Filters

- **Route:** `/employees/directory`
 - **Features & Testing:**
 1. **View Mode Switcher:**
 - Click **Grid View** icon to display employee cards with profile avatars.
 - Click **Table View** icon to display the high-performance **Virtualized Table**.
 2. **Search & Multi-Filtering:**
 - Type any employee name or code in the **Search** input.
 - Click the **Filter Bar** to filter by Department, Designation, or Status.
-

3.2 Add New Employee Form

- **Route:** `/employees/create`

 Step-by-Step Field Guide: How to Fill Form Sections

Section 1: Organizational Placement & Cascading Hierarchy

1. **STEP 1: Branch Location (* Required):**
 - * Select the employee's physical office branch (e.g. *Headquarters, Mumbai Branch*).
 - * *Note: Selecting a Branch automatically enables the Department dropdown.*
 2. **STEP 2: Department (* Required - Cascading):**
 - * Select the department (e.g. *Engineering (ENG), Human Resources (HR)*).
 - * *Note: Selecting a Department automatically filters available Designations and Reporting Managers.*
 3. **STEP 3: Designation (* Required - Cascading):**
 - * Select the official job designation (e.g. *Software Engineer, Product Manager*).
 4. **STEP 4: Squad Team (Optional):**
 - * Select a functional squad/team (e.g. *Frontend Team, Core Platform Squad*).
 5. **STEP 5: Primary Reporting Manager (Optional):**
 - * Select the primary manager to whom this employee reports.
 6. **STEP 6: Secondary Managers (Optional Multi-Select):**
 - * Select additional project or matrix managers if applicable.
 7. **STEP 7: System Security Role (* Required):**
 - * Assign access role: *Super Admin, HR Manager, Department Lead, or Employee.*
-

Section 2: Personal Details & Contact

1. **First Name (* Required):** Enter 2 to 100 characters (e.g., `Rohan`).
2. **Last Name (* Required):** Enter 2 to 100 characters (e.g., `Sharma`).
3. **Work Email Address (* Required):** Enter valid company email (e.g., `rohan.sharma@company.com`).
4. **Mobile Phone Number (Optional):** Select country code (e.g. `+91`) and enter a valid 10-digit mobile number.
5. **Date of Birth (Optional):** Select date of birth (`YYYY-MM-DD`).
6. **Gender (Optional):** Select *Male, Female, or Other*.
7. **Blood Group & Marital Status (Optional):** Select blood group (*A+, B+, O+, etc.*) and marital status (*Single, Married*).

8. **Nationality** (**Optional**): Enter nationality (e.g., **Indian**).

Section 3: Government Verification & Identity

- 1. **PAN Card Number** (**Optional**): Enter 10-character uppercase PAN string (e.g., **ABCDE1234F**).
 - 2. **Aadhaar Number** (**Optional**): Enter 12-digit Aadhaar number (cannot start with 0 or 1, e.g., **234567890123**).
-

Section 4: Employment Terms & Work Schedule

- 1. **Employee Type** (*** Required**): Select employment category: *Full Time, Part Time, Contract, Intern, Consultant, Temporary, or Freelance*.
 - 2. **Joining Date** (*** Required**): Select official date of joining (**YYYY-MM-DD**).
 - 3. **Probation End Date** (**Optional**): Select probation evaluation end date.
 - 4. **Assigned Shift** (**Optional**): Select assigned work timing shift (e.g., *General Morning Shift 09:00 AM - 06:00 PM*).
-

Section 5: Emergency Contacts

- 1. **Contact Person Name** (*** Required if contact added**): Full name of emergency contact (e.g., **Suresh Sharma**).
 - 2. **Relationship** (*** Required if contact added**): Relationship type (e.g., *Father, Spouse, Sibling*).
 - 3. **Emergency Phone** (*** Required**): 10-digit emergency contact phone number.
 - 4. **Email** (**Optional**): Emergency contact email.
-

Section 6: Bank Account Details

- 1. **Bank Name** (**Optional**): Financial institution name (e.g., *HDFC Bank*).
 - 2. **Account Number** (**Optional**): 6 to 20 digit numeric bank account number.
 - 3. **IFSC Code** (**Optional**): 11-character bank IFSC code (e.g., **HDFC0001234**).
 - 4. **Account Type** (**Optional**): Select *Salary, Savings, or Current*.
-

Section 7: Salary Setup & Annual CTC

- 1. **Annual CTC** (**Optional**): Enter total yearly Cost to Company in INR (e.g., **1200000**).
 - 2. **Payroll Components** (**Optional**): Configure line item breakdown (*BASIC, HRA, SPECIAL_ALLOWANCE*).
-

•  **Validation Errors Table for Add Employee Form:**

Section	Field	Trigger Condition	Expected Error Message
	:--	:--	:--
Basic Info	First / Last Name	Less than 2 chars	"First name must be 2-100 characters"
	Email	Invalid email format	"Please enter a valid email"
Govt IDs	PAN Card	Invalid PAN format	"Invalid PAN format (e.g. ABCDE1234F)"
	Aadhaar Card	Invalid Aadhaar format	"Aadhaar must be 12 digits and cannot start with 0 or 1"
Org Mapping	Department	Not selected	"Department is required"
	Designation	Not selected	"Designation is required"
Org Mapping	Role	Not selected	"Role is required"
Employment	Joining Date	Empty date	"Joining date is required"
Bank Account	Account Number	Invalid length / non-numeric	"Account number must be 6-20 numeric digits"
	IFSC Code	Invalid IFSC format	"Invalid IFSC code format (e.g. HDFC0001234)"
Emergency	Phone	Not 10 digits	"Emergency phone must be exactly 10 digits"

3.3 Employee Profile Tabs

- **Route:** `/employees/profile/:id`
 - **Testing Steps:**
 - Click on any employee row to open their 360-degree profile.
 - Test tab navigation: **Overview**, **Personal Info**, **Attendance Log**, **Leave History**, **Documents**, **Payroll**.
-

4. 🕒 Attendance & Time Tracking

- **Routes:** `/attendance` , `/reports` , `/attendance/regularizations`

4.1 Real-Time Check-In / Check-Out

- **Route:** `/attendance`
 - **Testing Steps:**
 1. Click the **Punch In** button.
 2. Observe current timestamp and location log update.
 3. Click **Punch Out** at end of test.
-

4.2 Attendance Reports & Punch Log Table

- **Route:** `/reports`
 - **Features & Testing:**
 1. **Date Range Filter:** Select **From Date** and **To Date** to filter attendance entries.
 2. **Punch Log Data Table:**
 - Verify table headers: `S.NO.` , `EMPLOYEE CODE` , `EMPLOYEE NAME` , `PUNCH LOG` , `PUNCH DATE` .
 - Verify **NO internal vertical scrollbar** (smooth natural height with 10 rows per page).
 - Click **Export** to download the CSV report.
 3. **Row Detail Modal:** Click on any row to open the **Attendance Details** modal.
-

4.3 Attendance Regularization Requests

- **Route:** `/attendance/regularizations`
 - **Testing Steps:**
 1. Click + **Request Regularization**.
 2. Select Date, Missed Punch Type (Check In / Check Out), Reason, and submit.
 - ⚠️ **Validation Errors to Test:**

Field	Trigger Condition	Expected Error Message
:---	:---	:---
Reason	Blank or < 10 chars	"Please enter a detailed reason (at least 10 characters)"
Date	Future date selected	"Regularization date cannot be in the future"
-

5. 🌴 Leave & Approvals Management

- **Routes:** `/leave` , `/leave/approvals`

5.1 Leave Dashboard & Request Submission

- **Route:** `/leave`

- **Testing Steps:**

1. Inspect **Leave Balance Cards** (Casual Leave, Sick Leave, Earned Leave).
2. Click + **Apply Leave**.
3. Select **Leave Type**, **Start Date**, **End Date**, and enter **Reason**.
4. Click **Submit Application**.

- **⚠️ Validation Errors to Test:**

| Field | Trigger Condition | Expected Error Message |

| :--- | :--- | :--- |

| **Leave Type** | Unselected | "Please select a leave type" |

| **Dates** | End Date < Start Date | "End date cannot be earlier than start date" |

| **Reason** | Leave blank | "Reason is required" |

| **Balance** | Requested days > Balance | "Insufficient leave balance for the selected leave type" |

5.2 Leave Approvals Queue (Manager View)

- **Route:** `/leave/approvals`

- **Testing Steps:**

1. View pending leave requests from team members.
2. Click **Approve** (green button) or **Reject** (red button).
3. Optional: Add reviewer comments in the confirmation dialog.

6. 📅 Holidays & Branch Calendars

- **Routes:** `/holidays`, `/branches/calendar`

Features & Testing:

1. **Holidays Directory** (`/holidays`):

- * View full list of public, national, and company holidays.
- * Filter holidays by year or branch.

2. **Branch Work Calendar** (`/branches/calendar`):

- * Interactive calendar grid displaying working days, weekend policies, and scheduled company events.

7. 🏢 Organization & Master Data Administration

- **Routes:** `/departments`, `/designations`, `/branches`

7.1 Departments Management (`/departments`)

- **Testing Steps:**

1. View department list with code chips and employee counts.
2. Click + **Add Department**.
3. Enter Department Name, Code (e.g. `ENG`, `HR`), and Department Head.

- **⚠️ Validation Errors to Test:**

| Field | Trigger Condition | Expected Error Message |

| :--- | :--- | :--- |

| **Department Name** | Blank | "Department name is required" |

| **Department Code** | Non-alphanumeric or > 10 chars | "Code must be 2-10 uppercase alphanumeric characters" |

7.2 Designations Management (/designations)

- **Testing Steps:**
 1. View designations directory.
 2. Click + **Add Designation** to configure job titles and pay bands.
 -  **Validation Errors to Test:**
 - Leaving Title blank triggers "Designation title is required" .
-

7.3 Branch Management (/branches)

- **Testing Steps:**
 1. View office branch locations.
 2. Add new branch address, timezone, and working hours.
 -  **Validation Errors to Test:**
 - Leaving Branch Name blank triggers "Branch name is required" .
-

8. Roles & Permissions Administration

- **Route:** /settings

Features & Testing:

1. **Roles Directory:**
 - * View built-in roles: *Super Admin, HR Manager, Department Lead, Employee.*
 2. **Permission Matrix Checkbox Grid:**
 - * Select any role to load its permission matrix.
 - * Toggle permissions across modules (*View, Create, Edit, Delete, Approve*).
 - * Click **Save Permissions**.
 - *  **Validation Errors to Test:**
 - * Submitting custom role without name triggers "Role name is required" .
 - * Selecting zero permissions triggers "At least one permission must be granted" .
-

9. Onboarding & Document Verification

- **Route:** /onboarding

Features & Testing:

1. **Onboarding Pipeline:**
 - * Track status of new hires (*Pending Documents, Verification in Progress, Completed*).
 2. **Document Verification Modal:**
 - * Click on any new joiner record to preview submitted ID proofs (Aadhaar, PAN, Passport).
 - * Click **Verify** or **Request Resubmission**.
 - *  **Validation Errors to Test:**
 - * Rejecting a document without entering a rejection note triggers "Rejection reason is required" .
-

Quick Tips for Testers

TIP

****Performance Verification****: All major data tables (Employee Directory, Attendance Log, Leave Requests) use ****Virtualization****. Open Chrome DevTools (`F12` → `Elements``) while scrolling to verify sub-16ms frame rates and zero DOM bloat.

NOTE

****Responsive Layouts****: Resize your browser window or switch to mobile view (`< 600px``). The app automatically switches table views into compact mobile cards.
